### **Company profile**

The SMT Scharf Group develops, manufactures and services transportation equipment for underground mining as well as for tunnel construction. Its main products include captivated railway systems that are deployed worldwide, primarily in hard coal mines, as well as in mines for gold, platinum and other metals. Such systems are required in order to transport material and personnel with payloads of up to 48 tonnes and on gradients of up to 30 degrees. SMT Scharf also supplies the mining sector with chairlifts. Since 2018, SMT Scharf's diverse portfolio has also included rubber-tyred diesel and electric vehicles for mining and tunnelling, including loaders, scissor lifts and underground trucks. As part of the further diversification of the business, the product range has been successfully expanded since 2019 to include electronic components and control systems for mining and other industries. Overall, the SMT Scharf Group is active with subsidiaries in eight countries, as well as commercial agencies worldwide. SMT Scharf generates a large share of its revenue in growing foreign markets such as China, Russia, Poland and South Africa.
